Type of Facility: Hospital

How Healing Touch is currently being used in your facility:

Healing Touch continues to be provided by the volunteer staff trained in this area and is available to all in-patients as well as those in the Emergency Department. It is used alone, or in conjunction with Aromatherapy and on occasion in tandem with live music. (Harpist on staff in part-time paid position). We are currently working to coordinate HT as part of out-patient services in conjunction with the hospital's Image Recovery Program geared towards cancer survivors. The lead physical therapist on the Rehab unit has also become trained in HT and is a constant referral source.

Other information you would like to include about your facility:

Bon Secours is committed to excellence in patient care and is open-minded to the use of a full-range of complementary and therapeutic offerings for wholistic health care. Both the employees of and the population served by Bon Secours DePaul Medical Center are diverse in nature but highly family-oriented. This particular facility provides a great deal of care to the uninsured and indigent population of the local and surrounding community. Funding for continued provision of complementary services is therefore often challenging to secure.
