How Healing Touch is currently being used in your facility:

Healing Touch is one of the evidenced based alternative medicine services that we offer at our clinic. Patients schedule a Healing Touch appointment. I also see patients for a free mini session (30 min) at the request of their provider. For example, a patient might be in for a visit and be in physical pain or emotionally stressed and their provider will refer them to me for a Healing Touch mini session if I am available at that time.

Other information you would like to include about your facility: Ours is a small clinic in a rural town in south central Wisconsin. We opened our doors just 3 years ago and the growth has been fantastic. We are already looking into building a bigger clinic. I am amazed at the distances that people drive to get to our clinic. All three of our MD's are family practitioners. One also does neuro and biofeedback, another does acupuncture and the third is currently in Dr. Andrew Weil's Integrative Medicine Program. We also have a nurse practitioner and a nurse midwife.

We offer classes on a variety of subjects - yoga, aromatherapy, art therapy, herbal medicine, etc.
